DATASHEET / IRONCLAD RESOURCE CENTER

Ironclad SIEM Overview

An at-a-glance guide to the operational capabilities that bring security data, investigation, and reporting together.

Centralize security context

Datasheet guidance for building a stronger, more repeatable security operation.

- Collect telemetry from endpoints, firewalls, cloud, email, and identity platforms
- Retain searchable historical evidence
- Create a shared source of truth for security operations

Investigate with confidence

Datasheet guidance for building a stronger, more repeatable security operation.

- Correlate events across sources
- Use guided search to accelerate analyst workflows
- Document activity and evidence for every investigation

Report what matters

Datasheet guidance for building a stronger, more repeatable security operation.

- Operational visibility for security teams
- Executive-ready risk and progress summaries
- Customized formats for compliance and stakeholders
